Follow the river from Duwamish Waterway Park, cross the South Park Bridge and walk to the Duwamish River Public Viewpoint. Continue along East Marginal Way and walk along the residential/industrial edge on Ellis Ave S. Head west towards Corson Ave Sand make a loop following the predredging course of the Duwamish Oxbow along South River Street, Corson Ave, and South Fidalgo Street. Note how the streets of Georgetown were formed from the natural course of the river waterfront. Complete the loop at Oxbow park, the site of the proposed new Georgetown Crossing ecological connector.
